

## Frequently Asked Questions About ALL SYSTEMS GO! TOTAL HEALTH AID

A comprehensive formula of powerful whole “green” food ingredients, this palatable powder provides complete support for the entire body. All Systems Go restores and cleanses the respiratory, digestive, circulatory, hepatic and renal systems. All Systems Go has been specially formulated using high quality nutrients lending specific beneficial properties to provide your pets with total systemic health support.

### **What are the ingredients?**

Many of our chosen ingredients possess proven, potent antiviral, antimicrobial, anti-inflammatory properties. Several of them are believed to reduce the risk of cancer. Each of them contributes valuable phytonutrients, as well as expressing a specific affinity to one or more of the major systems in your pet’s body.

We have purposely not included any plants that are endangered from over harvesting or known to be associated with potential pathogens. We use only plants grown with environmentally- and eco-friendly, organic methods, and known to be safe for your pets to ingest daily. None of the ingredients can cause toxicity or harm your pets. Your pet’s body will utilize what it requires from each dose, and should there be any excess, it will be excreted. As with any supplement, check with a vet before administering during pregnancy or lactation.

### Sea Vegetation

*Irish Moss*- Supports both the respiratory and digestive systems as well as expressing antiviral properties.

*Dulse*-Provides universal support of the body systems while aiding metabolism.

*Spirulina*- A highly digestible single cell organism, providing high quality protein, possessing antiviral, and antimicrobial properties; may reduce the risk of cancer.

*Chlorella*-Has a very strong affinity to the circulatory system, helping to cleanse the blood, support the digestive tract and boost the entire immune system.

### Land Vegetation

*Watercress*-Contains thiocyanates which have been shown to promote resistance to cancer.

*Parsley*-Great for the digestive system, boosts kidney function, assists in waste elimination, freshens the breath and aids in arthritic conditions.

*Fennel*- A well known anti-inflammatory, antiviral and antimicrobial, good for colic and flatulence problems. Soothes the digestive and respiratory tracts, provides bioflavonoids.

*Dandelion*- Extremely useful to the urinary and renal systems. Helps to cleanse the kidney, bladder and liver, reduces the occurrence of dermatitis.

*Fenugreek*- Helps to regulate blood sugar, assists metabolism and reduces cholesterol.

*Nettle*- Reduces urinary tract inflammation and cleanses the renal system.

### **My pets hate medicine, how do I get them to take this?**

This formula provides all the support your pet needs in a very small serving. We provide a calibrated dosage scoop for the powder, which you may mix in with or sprinkle over food. May be mixed into a small amount of yogurt, cottage cheese, or similar food if necessary, but All Systems Go has been formulated with anchovy powder and desiccated liver to make it taste good to your pets.
